

Announcement for seeking experts on "formation damage project":

CAPA is seeking for experts in the areas of "formation damage in high pressure mudstone formation in southern Taiwan" to provide training to CPC in Taiwan. CPC will reimburse the speakers round-trip airfare and lecture fees. The potential topics include but not limited to the followings:

1. Mud design (drilling and drill-in)
2. Perforation
3. Stimulation (acidizing, fracture, etc.)
4. Special drilling techniques such as UBD or MPD, etc.

Qualified individuals (CAPA members should be preferred candidates) with knowledge and experience in the above areas can email their CV, interested topics and preferable dates to David Chen ([David.Chen@halliburton.com](mailto:David.Chen@halliburton.com)) and/or me ([Jianping.gong@bp.com](mailto:Jianping.gong@bp.com)) of CAPC?" before March 31, 2007. We will contact you to discuss the final selections.

Thanks for your participation and support!

Regards,  
Jianping Gong  
CAPA 2007 President
